

Instructions for Form MA-1025, Vessel Data and Capital Costs

A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid OMB Control Number. The OMB Control Number for this information collection is 2133-0514. Public reporting for this collection of information is estimated to be approximately 1 hour per response, including the time for reviewing instructions, completing and reviewing the collection of information. All responses to this collection of information are voluntary. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Information Collection Clearance Officer, Maritime Administration, MAR-390, 1200 New Jersey Avenue, SE, Washington, DC 20590.

This information is required by 46 CFR Part 382.2. The information requested must be completed with the company's initial filing to Maritime Administration. After the initial filing, this information need only be resubmitted when changes occur. Speed and fuel consumption and capitalization should be reevaluated on an annual basis but need not be reported unless changes occur. Use additional sheets as necessary.

Vessel Name: Current Official Name.

Vessel DWT: Summer deadweight tons per classification society.

Vessel Official Number: U.S. Coast Guard Official No.

Date Built: Date of delivery.

Date Purchased: Date vessel was purchased if different from date of delivery.

Date Rebuilt: Date of redelivery if vessel was substantially reconstructed.

Canal Tonnages: Suez and Panama as applicable

Normal Operating Speed: Normal operating speeds, loaded and ballast.

Daily Fuel Consumption: Fuel consumed by specific type of fuel per day at sea and in port. Tankers should provide standing and pumping separately. Provide fuel consumption in metric tons or gallons.

Capitalized Vessel Costs: For each capitalized item, provide the amount of capitalization and the interest rate associated with the capitalization, if secured by mortgage. If the interest rate is variable, provide the formula. If the interest rate is subject to change or renegotiation, provide the new interest rate prior to implementation of the change.

Certification Statement: All information submitted to MARAD must be certified by a responsible officer of the company. A cover letter listing all enclosures by vessel and certifying their accuracy can be used as an alternative to vessel by vessel certifications.
